

# 's Care Chart

(Bearded Dragon's Name Here)

I need to...	SUN	MON	TUES	WED	THURS	FRI	SAT
<p>Feed – baby/juveniles can eat crickets (dusted with calcium supplement) 2-3 times/day-as many as beardie can eat in 5-10 minutes. Adults can eat crickets once/day. Also give fresh greens daily. Spray greens with water to keep your beardie hydrated. Only give insects that are no bigger than the space between their eyes. Remove uneaten prey items from cage daily.</p>							
<p>Keep tank 80-85°F</p> <p>Check basking spot temperature to make sure it is around 95-100°F</p>							
<p>Remove and replace substrate once/week. Use safe choices for cage substrate such as newspaper, paper towels, butcher paper, or reptile carpet.</p>
