

Making Friends

Be approachable. This means that you can smile and look friendly.

Start with talking about simple, every day topics like video games or favorite movies. Ask general questions like, "What's your favorite game?" Talk about something that you have in common like school. Show interest in the other person.

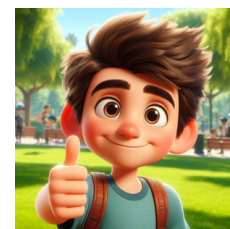

Join activities so you can meet other kids.

Be kind and inclusive. Make other kids feel welcome to join in the game or activity.

Be a good listener!

Most important of all, be yourself!
